Workshop, 22 Feb 2023

Onshore Feedback

- Onshore Proposals Impact on Biodiversity
- Competing for space with housing developers
- Impact on traffic
- Disruption to transport
- Noise pollution and vibrations

“The project team should be aware of the traffic and transport as there will be a lot more traffic while building and installing the wind turbines.”

Offshore Feedback

- Fisheries issues
- Marine mammal awareness
- Safety during construction
- Underground cables

“The project team should be aware of marine mammals. We can't disrupt their lives just to benefit ours.”

Community

- Engage with communities
- Transparent communication
- Potential community projects or initiatives
- Upgrade community facilities

“Run fundraisers/competitions, people like to feel like they're part of something.”

“Allow sponsorships from local business, can create a high community morale and people want to invest more.”

Economic

- Invest in local community
- Generate job opportunities
- Hold local fundraisers
- Host school workshops

Winner of our 'Design a Tote Bag' Competition! Look out for these at our next public consultation event!
